

*To support our team in Hamburg
we are seeking a qualified*

IT Security Engineer (m/f/d)

We are a physician-led, integrated global oncology company. Our goal is to unveil the complex mechanisms of cancer, in order to support precision oncology.

Through our three divisions, IndivuServ, IndivuType, and IndivuTest, we offer specialized products and services that support our customers in biomarker and target discovery, drug development, clinical trials, individualized therapy, and more.

With more than 200 employees across Europe, North America, and Asia, we are an internationally minded, future-oriented company with an ambitious growth strategy and a strong international reputation. You will work with an innovative team of leading laboratory and bioinformatics scientists, product managers, and clinicians. Become part of our community, united by the goal of curing cancer.

Your Responsibilities

- Working closely with Quality Management and IT colleagues, ensure all computer system validations (CSV) are kept up to date and accurate.
