

To support our team in Hamburg we are seeking an experienced

Scrum Master (m/w/d)

in the department of medical bioinformatics

Indivumed is a physician-led, integrated global oncology company for personalized medicine with the world's premier high-content tumor database and highest-quality biobank. Our range of services and products is tailored to customers' needs in translational and clinical research and molecular diagnostics. With approximately 200 employees across Europe, North America, and Asia, we are an internationally minded, future-oriented company with an ambitious growth strategy, which includes the development of a global cancer database solution. Indivumed is proud of our innovative team of leading scientists and of our strong international reputation. At Indivumed, you are given the rare opportunity to pursue your professional goals and benefit from quick decision processes – thanks to a flat organizational structure and ample creative freedom.

Focus of our department

Integrative analyses of multiple data types facilitate a deeper understanding of molecular and epidemiological characteristics of cancer. With our work, we create the foundations for a modern data-driven cancer research and enable new future perspectives in patient care. Our interdisciplinary field comprises regular interactions with software developers, scientists, and physicians. You will work on joint initiatives and cooperations, but will also be responsible for the implementation of your own projects.

Skills and abilities

- Support and advice of Scrum teams with the adherence of agile values and principles
- Promotion of the agile mindset and basic knowledge on agile methods in the teams
- Securing the general framework for self-organization and self-responsibility
- Organization and implementation of Scrum meetings
- Support of the Product Owners with the definition and organization of the backlog
- Support of the team building process with internal and external colleagues
- Continuous optimization of the way how Scrum is being used
- Identification and removal of obstacles and the mediation of conflicts within the team

Our requirements

- Completed education or university studies in the field of computer science, business or the natural sciences
- Professional experience with agile teams
- Certification as a Scrum Master or the willingness to get it
- Technical understanding, programming skills and experience with modern software architectures
- Very good communication skills, social sensitiveness and diplomacy
- Authentic and open appearance as well as a high sense of responsibility
- Good knowledge of the English language, German is a plus

What we offer

An interesting and challenging area of responsibility in a strongly growing international enterprise, an inspiring environment and short decision procedures, a highly motivated, cooperative and open-minded team, good working atmosphere as well as continuous training opportunities.

Would you like to contribute to the success of our company?
